

RE: HB 3081

The effects of Climate Disruption are already destroying communities, orchards, crops, cattle, and other sources of food. Grocery prices will get so high that people will starve. The heat will kill people, animals, and plants. EVERY AND ANY THING WE CAN DO TO REDUCE THE IMPACT IS URGENTLY NECESSARY!!

PLEASE PASS THIS BILL TO HELP PEOPLE BECOME MORE ENERGY EFFICIENT. It's an important part of lessening the impact of Climate Disruption.
