

Submitter: James Boscole

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

Opposed to tax on tire purchase as proceeds do not go to building more roads to ease congestion on our highways or fixing damaged roadways...traffic congestion increases pollution, increase in accidents and loss of valuable life time...buses, trains, max are under used, bike riding is down 40% over the last 10 years, so money spent on these modes of transportation are a waste of taxes...
