

COALITION FOR A HEALTHY OREGON

Oregon's Voice for Community Based Health

COHO Supports SB 951

Doctors drive patient centered-care. SB 951 is designed to keep physicians in the drivers seat for Oregonians health care. Coordinated Care Organizations were built against the backdrop of the tripple-aim of better care, better health, and lower costs. Without physicians in control of their patients health care, we fall short on all three.

Please Pass SB 951!
