

Submitter: Tangela Purdom

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB88

My energy bill has increased significantly. I do not believe the utility company should charge the consumer to lobby for their exclusive benefit , nor to advertise. Litigation and penalties or fines and compensation should not be our responsibility to pay either. All of these are only to benefit the utility not the consumer. The profit is where these costs to do business needs to be taken from. Please help the consumer keep the heat on in our homes.
