Hi my name is Brendan Hassler and this is my testimony Against stopping Flavors in Oregon.

I grew up in a family that was a pack of day smokers that caused me to become a smoker when I became of age due to second hand smoke. Because of recent discoveries and recent flavored delivery products I can now confidently say that my families smoking habits are not what they use to be because of these flavored delivery systems and have helped many family friends to stop smoking. This flavor ban will HARM so many more than the amount that's speculated to help. I please request that you do not go through with this flavor ban.
