Our multiracial household of 4 registered voters is opposed to any additional taxes. The Oregon legislature must work without continuing to spend money while Oregonians across the state are losing jobs and tightening their budgets at home. It is unconscionable that this is even a topic of discussion at this time. The state of Oregon has enough money but appears to lack the ability to prioritize its budget on essential services that affect the lives of the over 4 million living within the borders of Oregon.

Thank you for your time on this matter.
