

Submitter: James Ambrose

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

This is an unfair tax on all people of Oregon where they will not benefit from the tax collected and spent elsewhere.

Oregon already has a high gas tax and our roads are among the worst in the nation.

Charge the all electric cars with a mileage tax equal to the gas tax as they are heavier than their gasoline automobile equivalent and will do more damage to our roads.
