

Submitter: Jason Buchanan
On Behalf Of: Baker city vape
Committee: Senate Committee On Early Childhood and Behavioral Health
Measure, Appointment or Topic: SB702

This bill negatively affects many jobs, mine included. Taking away all flavored juice because children can get it is unreasonable, kids get ahold of flavored alcohol daily and get injured or die all the time are you going to to ban that? It is an adult product designed for adults. Banning flavored vapes will only increase demand for flavored vapes through black market. Thanks for your consideration. Jason buchanan
