

Tracy Honl

Regarding: Vote **NO** on HB3362

March 4, 2024

My name is Tracy Honl and I am a concerned resident over House Bill 3362 that levies a tax of 4% on all tire purchases to fund such things as mass transit systems, wildlife crossings over highways, etc.

Oregonians have repeatedly rejected a sales tax. Should we now pay a sales tax (“excise tax”) on tires, including those for tractors and other off-road vehicles to fund projects not related to road and bridge maintenance? **NO**

Should businesses be burdened with collection, record-keeping, and payment of such taxes? **NO**

Please vote no on HB 3362. The last thing Oregonian’s need is another tax - especially one that doesn’t fix our crumbling roads and bridges.

Thank you,

Tracy Honl

Astoria, Oregon
