

Submitter: David Kosokowsky

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

This is a further penalty on drivers that does nothing to fix our degrading roadways. It is obviously designed to force people out of their cars and into use of a pathetic public transit system that fails to meet most people's needs. And it hurts older people that have difficulty walking or biking, It is yet one more terrible idea and should be scrapped.

Thank you for your time and attention.
