

Submitter: Don Martin
On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

This is ridiculous tax tires after you are already taxing gas to the extreme. Oregon does not need another tax it needs a government that looks at the true issue, spend. Oregon has a spending problem, throwing money at every issue thinking that will resolve the issue. Start looking at the issues and money being spent; do we get anything for what is being spent or should we step back rethink the needs. More money is not the answer to everything unless you are trying to just get more taxpayer money.
