

Submitter: Mary Cameron

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

Placing a tax on tires will put an undue burden on businesses and citizens. Neither have recovered from the Covid disaster. Many are struggling to pay their rent and utilities every month and still put food on the table. Adding another tax to their already overburdened budget may cause them to fail.

When i cannot pay my necessities, I first look at what I can cut. I look for cheaper cuts of meat and items on sale. I cut what I have to to pay my rent and keep the lights on. I suggest state government do the same so the states citizens can afford to live.

Please vote no on this bill.
