On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

Dear Joint Committee on Transportation,

Thank you for your consideration of this issue and I urge a no vote on HB3362. This bill is a direct attack on those of us who work and/or live in rural Oregon. We by and large drive further distances to get everything we need including groceries, getting our kids to school, etc. Therefore of course we are going to need to get tires on our vehicles more often, creating an unfair tax if you're adding taxes to every tire being sold in this state. I'm asking that you please don't tax tires and unfairly target rural Oregonians.

Thank you for your consideration.

Sincerely,  
Brenda Frketich
