

Submitter: Kathrin McCoy  
On Behalf Of: Kathrin McCoy  
Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3362

I support any state legislatures which will create funds that directly or indirectly benefit wildlife conservation, management, and recovery. I support additional fees or costs so long as the generation of such funds will be directly applied to wildlife purposes and conservation, management, and recovery goals. I especially advocate for the creation of wildlife crossings and tunnels for the safe passage, movements, and migrations of myriad wildlife species.
