

Submitter: John Durbetaki
On Behalf Of: Self
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

Rather than making government work better for the people, there is a trend that "representatives" must propose making government bigger and this requires adding a new TAX. It is especially discouraging to us lowly citizens that the tax is designated to some purpose other than that which the item being taxed impacts - as in HB3362.

We are taxed enough. Fix the OVER SPENDING and reduce the size of government so that the PERS disaster can be fixed.

We really need DOGE for Oregon!!!
