

Submitter: Maureen Ogilvie

On Behalf Of:

Committee: Senate Committee On Education

Measure, Appointment or Topic: SB1098

I am emphatically in support of SB 1098. It is critical for individuals to have access to a range of ideas, perspectives and stories. The right to read and think critically about what we read, is a fundamental part of human development and growth. It is basic to the idea of a free society and personal freedom.
