

Submitter: Rob Taylor

On Behalf Of:

Committee: Senate Committee On Education

Measure, Appointment or Topic: SB1098

SB 1029 should be called the "Porno Protection Bil," because that is the intent of this measure.

School Boards should have and keep the authority to make these decisions on material independently and there are already laws against discrimination.

This bill was submitted to appease a fringe group who are promoting the sexualization of children and anyone who votes for this immoral act is assisting in that exploitation.

Vote NO on SB 1029.
