

Submitter: Phyllis Thiemann

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I oppose the tax on tires. We have been taxed to death in gas tax that was supposed to go to improving roads. Our roads are falling apart. We have great looking curbs and sidewalks that the homeless can use much easier to transport their carts etc. but are not safe for everyone else to be on.

ODOT needs to do their job and maintain the roads. No more taxes until they use the funds they have for what they are intended for.
