

Submitter: Emily Minah

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I am writing to send in my support for HB 3362. I want to tell the legislature that I stand up for clean water and native fish.

HB 3362 will help prevent the impact of tire chemicals on native fish. Clean water is so important to me and our region.

Thank you,
Emily Minah
