

Submitter: Phil Kirkland

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

The chemical known as 6PPD found in tires is not just detrimental to fish, but water ecosystems as a whole. Please take this seriously and establish funding to help with this pollution that will soon overtake clean waterways. Put this into motion so we don't see significant major harm on the very water so many of us love and utilize daily.
