I wholeheartedly oppose any bill that would make it easier for sex offenders to hide and potentially re-offend. I believe in second chances, but not when it comes to the safety of children or anyone in our communities. As a mom who had a sex offender arrested in my next door neighbors home (connected to mine as a duplex), and as a victim of sexual assault myself, I cannot and will not stand by while people are put at risk. Please do not pass this bill!
