First of all I oppose SB611, This bill is going against federal regulations of allowing food stamps to go towards illegals in the state. Oregon is already in a budget shortfall and this would just cause a bigger budget crisis. The state can't even figure out it's funding for ODOT which is billions in the hole there fore they claim there's no funds to maintain and fix the roads. They can't fix the drug and homeless problem that this Governor created along with Kate Brown, oh but she wants more taxes to give to the homeless unbelievable. Oregon needs to stop funding people coming into the state with free food, free housing, health benefits, even giving \$1000.00 a month to illegals who are homeless. This is all more than the citizens of this state receive. What gives this Gov the right to give out all these free benefits to these illegals who are criminals as well. Do you give food stamps to the criminals in prisons NO so why should the criminal illegals get them.? We the people have had enough of these ridiculous taxes put on us for these ridiculous bills to defy federal regulations and put another financial burden on Oregon. Stop all this outrageous idiot ideas and DO YOUR JOBS . You work for us and not the Governor and what she wants. Its time Oregon gets an audit by DOGE on this corrupt Governor and agencies now. Please save what was once a great state to live in and do the right thing, before its too late. VOTE NO ON SB611. Thank you
