

Submitter: Erik Shackelford

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

Quality tires are necessary to safe travel. A tax on tires will push people towards cheap, low quality tires and, or they will push long past the minimum tread depth. This will negatively impact small businesses. Cars, trucks, and motorcycles continue to be the superior way to travel. A new tax will only have a negative impact on our state.
