Committee:

Senate Committee On Education

Measure, Appointment or Topic:

SB1098

We always use a level of discretion when it comes to children, that differs from that used with adults. We discern between minors and adults in the law EVERYWHERE. STOP SEXUALIZING CHILDREN.

Democrat policies, however you couch them, seem intent on sexualizing children. Do some self reflection...why is it so important that pornography is available to ALL children? I find this incredibly suspect, and I'm surprised our leaders are so devoid of shame.

You are specifically legislating to enshrine pornographic content in schools. In fact, you are trying to force it ON schools by usurping the power of the school boards.

What is the point of VOTING for school boards, if the authoritarian Legislature removes their power?? THIS THREATENS OUR DEMOCRACY.
