Committee:

Joint Committee On Transportation

Measure, Appointment or Topic:

HB3362

Until the roads are improved, a tax on tires is completely unfair. I live barely paycheck to paycheck and have had to replace tires multiple times due to pothole damage. I have also paid to have my axels replaced because of shoddy roads and potholes. This tax would be the straw that broke the camel's back to many in this city who are already thinking of leaving due to high taxes with no apparent benefits seen in the past five years.
