

Submitter: SHEILA CALDWELL

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

When we tax something, the tax should be used on support for the item being taxed... Tires use the road, so tax should be used on roads, bridges, etc.

Most of us are Tired of the appropriation of money for uses other than what that tax would logically be used for...

I wonder why any of our elected officials think this would be a good idea...
