

Submitter: Syd Cloud

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I would like to share my support for this bill as someone with disabilities and who needs to access public transit in order to get most places. I love that Portland allows me so many options to connect to other cities via Amtrak and in the surrounding areas via trimet. This bill would stand to benefit people, wildlife, and the environment, and I hope that it will be passed.
