HB3012

Esteemed legislators,

My name is Tamara, I have worked directly with young people for several years now providing case management. What I have seen is a generation that's ready to be responsible and committed to change. In our society, children grow up knowing that responsibilities will come their way and they get closer to adulthood. Many young people at 16 have a job or are leaving their parents to other towns for school and live in a completely different environment. When I was 17, I remember being very excited to get a drivers license and vote for the first time. This feeling of being an active participant of society has only increased as this new generation embraces the information available to them. Let's support younger people to show their voice. I urge you to please pass HB 3012.

Thank you!
