Measure, Appointment or Topic: SB566

I am writing to oppose SB 566. In late spring and summer, this bill would trade an hour of evening sun for an hour of pre-6am sun. On the summer solstice, birds would begin chirping around 3:15am and the sun would rise at 4:21am. We'd trade away the glorious 9pm sunsets that are a distinct pleasure of living here, all for a disruptive hour of sun when most folks are trying to sleep. Please don't ditch DST!
