

Submitter: Zach Caster

On Behalf Of:

Committee: Senate Committee On Early Childhood and Behavioral Health

Measure, Appointment or Topic: SB702

Prohibition never works it's already illegal for children under 21 to smoke tobacco products including flavored vapes this will result in people going to less healthy alternatives

Again history has shown prohibition never works you will shut down and lose a lot of tax money that you guys are already over spending and your already asking for new taxes
