

Submitter: Connie Harris  
On Behalf Of: Oregon residence and family  
Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3362

Thank you for supporting clean waters.

We all live down stream.

The current federal services continue to reduce safety and security measures for environmental impacts.

Please keep the future generations in mind and protect the water.

it is the life for the planet, people and all living things.

Bless the Big Green Trees that warm my heart with every visit.

Connie Harris
