

Submitter: Jenny Pompilio

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB3081

Dear Chair Lively, Vice Chair Gamba, Vice Chair Levy, and Members of the Committee,

My name is Jenny Pompilio and I live in Portland. I support House Bill 3081 "One Stop Shop 2.0" because it will make it easier for Oregonians to take advantage of rebates and incentives on home energy-efficiency upgrades. I have found it difficult to navigate the energy-efficient landscape which has made it harder to investigate and subsequently invest in solar panels and a heat pump for our home. I support HB 3081 because One Stop Shop 2.0 aims to offer live support to help users navigate the hundreds of available upgrades and rebates. I would get direct assistance from someone in my region to make my home projects more affordable, connect with trusted contractors, and be able to ask questions along the way. This would be great! We lost power for weeks last year during the Winter Apocalypse storm of January 2024 and it would be great to have solar power to help us when the next long power outage occurs (ie the Big Earthquake!).

Thank you for your support of House Bill 3081.

Sincerely,

Jenny Pompilio MD, MPH
