Senate Committee On Education

Measure, Appointment or Topic:

SB1098

Well, knowing from parents' first-hand experience of the non-educational, anti-American propaganda, and sometimes pornographic materials that school boards routinely allow into libraries, often again vehement parental objection when parents can see their kids being exposed to degenerate material unfit for any minor child, I object! Parents should be able to object to deviant, subversive materials in their kids' school libraries! Stick to education fundamentals! Our kids are not being prepared for the future! No!
