

Submitter: Jenny Pompilio

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: SB88

Dear Chair Sollman, Vice-Chair Brock Smith, and Members of the Committee,  
My name is Jenny Pompilio, and I am a physician, public health advocate and mother living in Portland. I am writing in support of SB 88 to make sure that advertising, legal and lobbyist fees come out of company profits, not rate payer pockets. I support SB 88 because when high energy bills force Oregonians to choose between turning their heat on in the winter or paying their rent, that's not resilience-that is potentially deadly. High energy costs make us less resilient and can make climate disasters like heat waves, and ice and snow storms more deadly. It's time utility companies stop tacking unnecessary 'junk costs' onto our already high utility bills. Oregon's largest for-profit utilities have raised customers' bills by about 50% in four years. At the same time, Oregonians are left shouldering the burden of climbing fossil fuel prices, growing costs of wildfire damages and handouts to large industrial consumers. We must take action to get utility rate hikes under control. SB 88 will make sure that advertising, legal and lobbyist fees come out of company profits, not customer pockets! Thank you in advance for your support of SB 88.

Sincerely,

Jenny Pompilio MD, MPH
