

4 March 2025

House Committee on Climate, Energy and Environment
Oregon State Capitol
900 Court Street NE
Salem, OR 97301

Subject: HB 3081 - Support

Dear Chair Lively, Vice-Chairs Gamba and Levy, and Members of the Committee:

My name Michael Mitton and I organize with MCAT (Mobilizing Climate Action Together), a community of volunteers working on advancing a healthy climate and a green economy for future generations. I support HB 3081 because it can help Oregonians navigate the complex array of energy efficiency upgrades and rebates that are available from their utilities and other programs. These can include heat pumps, induction cooktops, better insulation in homes and buildings, etc. It can help them find what is most affordable, making it easier for more people to transition to a sustainable and cleaner energy future. These changes can result in lower utility bills, cleaner air both inside their homes and outside in the atmosphere which benefits everybody. It can also help lower demand on our increasingly strained power grid.

Thank you for the opportunity to testify in support of HB 3081.

Michael Mitton
