

Submitter: Heather Cox

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I oppose HB 3362. Whenever the voters are given a chance to voice their opinion on sales tax in Oregon the majority have always said no. Implementing a sales tax on individual products feels like a sneaky way to get what the voters have said no to. We already have a high income tax, housing costs and property tax are high too. Living in Oregon is already unaffordable. Many young people I know are moving out of state because they can't afford to live here. Please don't make things worse with this bill.
