

Hello,

I am writing to express my opposition to HB 3362. While I don't mind paying taxes to support public services, I do oppose paying a tax on one item

to pay for other undefined "programs". Given the state of Oregon road maintenance and the needed repairs, including bridges, I feel HB 3362 is wrong for Oregon. Fund Oregon roads and bridges first.

Please do not give this bill further consideration.

Thank you!
