Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I would support this bill if studded tires were taxed at a much higher rate commensurate with the damage they do to our roads. Maybe \$25 per tire. Maybe ban studs entirely. I've lived in Bend 14 years and ski frequently, plus work part time at Mt. Bachelor so I sometimes drive up before the plows and have never wished for studded tires over my snow tires.
