

Submitter: George Spink

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I'm oppose to any and all new fees and taxes. Where is Elon and DOGE when you need them. Being in the private sector (sales) my income is steadily going down and inflation is eating up what cushion I might have left. Oregon needs to get it's financial house in order, just like I have to. Reduce regulation and give businesses the ability to grow and prosper. Healthy businesses have more employees and the employees pay the taxes, buy goods and services for a all around healthy economy. Remember the private sector pays the way for the public sector. Our State government is bloated, over staffed and starving the people that pay them.
