

Submitter: Spring Bartlett

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I support the use of a tax on tires to help fund public transit. Anything that moves us towards better passenger rail service as an alternative to individual auto use is good for the environment and for the large non-driving population. I would like to see the Pioneer Line in particular reinstated between Portland and Boise. We no longer have even a bus service, with an aging demographic and less medical services in Nearby Baker City.
