On Behalf Of:

Committee: Senate Committee On Early Childhood and Behavioral Health

Measure, Appointment or Topic: SB702

I stopped smoking cigarettes once vapes came out and I breath a lot better smell a lot better and all around feel better since stopping cigarettes. The vapes are still a great crutch to relieve a lil stress and helps me relax. I also just like to smoke. The fruit flavors are great because I like fruit as a 31 year old adult. It's up to parents to make sure their kids aren't vaping and not the government. You still have to be 18 to purchase them. Vapes are a lot better than cigarettes and it would be a shame to ban them and not cigarettes.
