SB611

Having worked with students and families throughout Oregon for 8 years, I know how difficult it is for folks to get the resources they need, particularly food resources and proper nutrition. Many rely on food banks and school meals, despite working full time jobs. Nutritious food is a human right and we need to expand these services to meet the needs of our communities, not take them away. Families with proper nutrition are more successful and healthier, allowing them to fully participate in society and thrive.
