

Submitter: Susan Bull
On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

Please stop doing this to Oregonians! We pay taxes! Property! Gas! Hotel! Income!
We are just trying to live in our house. We work 2 Full Time jobs. We raised 4
children. Need to adopt and raise a grandchild. Took care of 1 parent till they passed
from cancer. Now we take care of another parent with cancer and Parkinson's. We
are the Sandwich generation! We had to stop driving 1 car to cut back on cost. Just
when we think we are ahead you do something like this! You do realize that if you
raise this cost you will have people drive on tires that are not safe for them or others
on the roadways! We are better off than most and we still struggle!
