Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3362

Joint Committee on Transportation,

I am writing this to object to the excise tax on retail tire sales. I ask that you cancel or otherwise stop this bill. It is just another tax on Oregonians that has become unbearable and destroys any faith in our elected officials. The attempt to pass some other financial burden on the state citizens is unthinkable. The cost to live in this beautiful state is quickly becoming intolerable, especially with the main cause of Legislators that do not listen to the public they serve and only appear to be concerned with themselves and using their perceived power to make it harder on families and long time residents who are struggling to provide. The cost of most products has continued to increase, and this additional burden on necessary items for travel only makes it worse.

I urge you to stop this bill and assure all Oregonians it will not be revisited in any way.

Respectfully submitted.
