

Submitter: Shawnda Horn

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

During these times of high inflation and corporate layoffs, it is a terrible idea to add a tax to retail tire sales. This will increase costs for a majority of households who own a car as well as multiple businesses throughout the state - so citizens will be taxed twice as businesses pass the costs off to their consumers. Please be thoughtful of our local economy and vote "No" on HB3362. Thank you.
