On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

I am writing in opposition of House Bill 3362. In a time when everyday items are increasing in price at astronomical rate, an excise tax on tires will only hurt those Oregonians that can afford it the least. Not only will it make it more of a burden to replace tires on cars of rural Oregon residents that have no access to public transport, it will also certainly add to the rising cost of all goods that are transported via truck.
