

Submitter: Erin S

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

There has been so much already that has depleted the ability for Oregon families to thrive economically. By adding another tax on top of the already high prices we have to pay to live, it would make it even more difficult. I live in a very rural area where we require a 45 minute commute to work. We have to maintain vehicles to ensure reliable transportation to get to and from work, in an addition to having transportation for my ailing mother for appointments as well as my children. That being said, we are hard on tires and we have to drive a lot. We don't have a choice but to drive long distances for the necessities we need. The taxes on gas are enough a cause a hardship as it is in addition to the price of groceries to feed our household. I am asking on behalf of myself, and the rural communities to please NOT impose any tax hikes on tires!
