On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3362

My husband and I are owners of a small trucking company... the fact that you want to tax us on tires is maddening to me. Oregon is making it so hard for small business owners to make a living.. please stop taxing people who are trying to make an honest living!!! We already pay PUC tax to drive on Oregon roads .. please look for other ways to make money instead of trying to take it out of people wallets who are trying to raise a family and run a business!!
