Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: SB78

Do you folks actually care about the people you serve or you just trying to put the shaft to everyone you can?

78 screws the people and whoever come up with this drug influenced Idea should have a 90 day evaluation at the State mental hospital. I don't understand why the people keep saying no and the stupid keeps coming time and time again on these measures. Why don't you just hold town halls and bend over your base and screw up front rather than one bad measure at a time. Least slap the back of their head when your done.
