SB599

To know who this bill affects most, all you need to do is look at the locations of those opposing the bill. As with everything in this state, those living in the urban areas want to control the entire state. The forestry industry in Oregon used to be healthy, and made money for the state and made home building and buying cheaper. Yet, somehow, we never ran out of trees, and had many fewer forest fires. Please help this state get back to making money instead of taxing residents more each year.
